 Section E, Questions no. 36 to 38 are case study-based questions carrying 4 marks each. Internal choice is provided in 2 marks questions in each case-study.  
 There is no overall choice. However, an internal choice has been provided in 2 questions in Section B, 2 questions in Section C, 2 questions in Section D and 3 questions in Section E.  
 Draw neat diagrams wherever required. Take  $\pi = \frac{22}{7}$  wherever required if not stated.  
 Use of calculators is **not** allowed.
